8 The number of maps considered necessary by the DI must be purchased. There is no objection to a large order being given as proposed part of the money being paid this year & part next year. In a large order the rates will be lower.

9 On enquiry at the office of the DI, I learn that full enquiries have not been made of the leading map makers in India as to whether they cannot supply sufficiently good maps at cheaper rates. The DI has now kindly agreed to make necessary enquiries. After such enquiries are made the order may be given to the firm who offers best terms, Indian firms being give

preference other things being equal.

10 An estimate may also be obtained from the offg Supdt Govt press for manufacture the maps locally I understand that fairly good maps can be produced locally at cheap rates. It is a large order (Rs 30 000) and if we can utilize it in encouraging local enterprise it will be very good.

10 Importing maps for schools from England has become a thing of the past in many Indian provinces, the local article being cheap & cheap at the same time
